C00117 []	R8 Political / Government	Education Crisis in Nigeria	Peter Obi criticizes Nigerian leaders for ignoring the worsening state of education, highlighting the alarming statistics from UBEC and WAEC on out-of-school children and poor academic performance.	Refocus national priorities to provide quality, accessible education for all Nigerian children. **What Could Go Wrong?** Continued decline in educational standards, leading to a poorly skilled future workforce.	Over 20 million Nigerian children are out of school; only 38% passed recent WAEC exams.	Urgently increase funding and reforms targeted at basic education, improve teacher quality, and complete abandoned education projects.
