**His Excellency, Rt. Hon Sheriff F.O Obowevwori**

Governor of Delta State  
Delta State Government House  
Asaba, Nigeria

Dear Governor Obowevwori,

I hope this letter finds you well.

I am writing in connection with an article that I wrote recently on LinkedIn which called for nominations for **Good Hearted African Public Figures** who we could persuade to be Ambassadors for our Project Health Control (PHC) Service that we are actively promoting in Africa, starting with Nigeria.

In these early days of nominations yours stood out as particularly interesting and has prompted this special message to ask if you would consider a proposal for services that I believe addresses much of the challenges that you face as Governor of Delta States.

The email that I received with your nomination is here for reference:

*Snapshot of the email received*

Dear Mr Winter,

I hope this message finds you well. I recently had the pleasure of reading your insightful article on "Finding Good-Hearted Public Figures," and it immediately brought to mind the current Governor of my state, Rt. Hon. Sheriff F.O. Oborewori.

Governor Oborewori is truly a man of the people, deeply respected for his integrity and unwavering commitment to serving his constituents. His leadership has touched many lives, and he exemplifies the values that align perfectly with the ethos of your Ambassadors page.

I would be honored if you would consider him for inclusion on the [www.phcport.com](http://www.phcport.com) website, as I believe his story and service could inspire many.

Thank you for your time and consideration. I look forward to hearing from you.

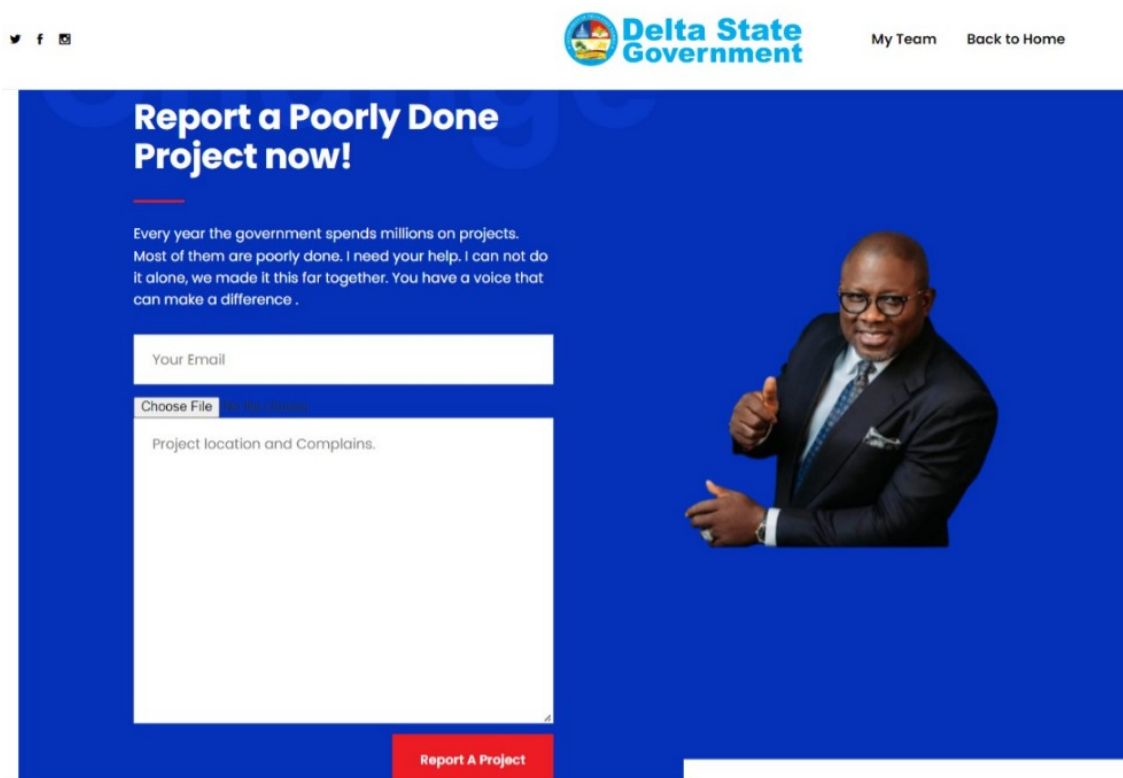

Warm regards,  
Diana Aghedo

Further research led me to the Delta State government website, where I had the pleasure of reviewing your profile. It was immediately clear why you were recommended as a 'good hearted public figure' as your work speaks for itself.

One particular aspect of your leadership that caught my attention is the initiative to allow citizens to report **poorly run projects** through a public feedback form. This initiative exemplifies your

commitment to transparency and accountability in governance. It is precisely this type of leadership that inspires trust and confidence from the public.

Upon conducting further research, I came across several videos that showcased various infrastructure inspection activities in Delta State. One particular video of a railway site inspection stood out as a clear example of where our services could be beneficial in addressing key project challenges.

[https://phcport.com/phcprojects/P007\\_Delta\\_State\\_Governance/Railway\\_Site\\_Inspection.mp4](https://phcport.com/phcprojects/P007_Delta_State_Governance/Railway_Site_Inspection.mp4)

At this point, I would like to introduce the *Project Health Control (PHC)* service that I believe could be of immense value to Delta State. A comprehensive project management and governance service that focuses on monitoring, risk management, public engagement, and quality assurance.

In short, PHC ensures that all active projects are effectively monitored, potential risks are addressed proactively, and public feedback is considered at every stage of a project's lifecycle. Our aim is to support your vision of improving transparency, accountability, and overall project success in Delta State.

I would be honored to discuss this further with you and explore how our services could support your ongoing efforts to enhance governance and project outcomes. If I could fix a time to visit your offices during my planned visit to Nigeria on 9-14 October 2024 that would be ideal for me.

Thank you for your time and consideration. I look forward to the opportunity to contribute to the great work you are doing in Delta State.

Warm regards,  
**David Winter**
